- Maximum capital: **1.250.000 USD (5000 BNB)**
- Minimum capital: **125.000 USD (500 BNB)**
- IDO Contract :

0xCa43341D79dc090213B950674bEda4379B054033

- IDO Smart Contract created in Cointool
- Liquidity pool is automatically created*
- Liquidity pool is locked during 21 months*

Safe IDO
presale

Maximum
security

21 months
locked

*The money raised will be automatically sent to create the liquidity pool in PancakeSwap (bitkoin/BNB). This liquidity will be locked during 21 months, offering maximum security to all investors. These 2 steps are made by a Smart Contract, not by a human. The minimum purchase to join bitkoin presale is just 2,5 USD (0.01 BNB).

*Only wallets with a minimum of 100 bitcoins (25 USD in pre-sale) will be able to receive 5% rewards in bitcoin (BTC). So, it is strongly suggested to buy now or cry later when price increase.

VIP Dex Offering (IDO)

- VIP IDO starts: **21st October 2023**
 - VIP pre-sale quantity: **1.000.000 bitcoin**
 - Gifts included: **10 bitcoin gifts***
 - Pack quantity tokens: **10.000 bitcoin**
 - Packs available: **100**
 - Cost of the pack: **2500 USDT (Bep-20)**
 - Maximum purchase: **2500 USDT**
 - Maximum capital: **250.000 USDT**
 - Minimum capital: **125.000 USDT**
- bitcoin project wallet to receive USDT (Bep-20):

0x41A37704C9b90a6A353823AB080E4f6a0b6e7B88

- 90% of USDT will be added to Liquidity Pool.
- 10% of USDT will be used for Marketing.
- Liquidity pool is locked during 21 months.

List of bitcoin events by dates:

1.- TOKENS BURN DAY

Every 21st of the month.

5% of the purchase fee is burned to reduce the tokens in circulation.

2.- BUY & SALE WITH 0% FEE

August 18th, October 31st, January 3rd, May 22nd.

Buy and sell tokens without pay 5% fee.

History behind these 4 events:

- August 18th, 2008, bitcoin.com domain was registered.
- October 31st, 2008, Satoshi Nakamoto publishes the White Paper that is the basis for its creation.
- January 3rd, 2009, the first block, the genesis block, is mined by Satoshi Nakamoto.
- May 22th, 2010, a very important event occurs: Laszlo Hanyecz made the first payment with bitcoins. He bought two pizzas at the popular Papa John's chain, for which he paid 10,000 BTC (on that date, one bitcoin was equivalent to \$0.003 dollars Since then, the so-called "Bitcoin Pizza Day" has been celebrated on that day in May.

3.- BUY WITH 0% FEE

November 8th and 9th.

Buy tokens without pay 5% fee.

History behind this 2 events:

Cryptocurrency exchange platform Binance reported that at 11:25 p.m. London time on Monday, November 8th, the value of the digital currency increased to \$67,630, while CoinMarketCap claimed that by early Tuesday 9th morning it already had \$68,530.34.

4.- SEND 5% FEE TO LIQUIDITY POOL

From November 30th to December 20th

During 21 days, 5% fee of all sales will be sent to increase the value of Liquidity Pool.

5.- SEND 5% FEE TO LIQUIDITY POOL

From May 30th to June 20th

During 21 days, 5% fee of all purchases will be sent to increase the value of Liquidity Pool.

bitcoin roadmap

Zhao Nakamoto is the creator of 21.000.000 bitcoin. This cryptocurrency tells the story of bitcoin (BTC) through an event-based trading calendar 365 days a year and distributes a 5% reward in bitcoin (BTC) daily to all its holder.

The bitcoin roadmap has 4 stages:

First stage

It is the launch of the token at a popular price of 0.25 USD with a minimum purchase of 2.5 USD that allows all small holders to participate. Bitcoin also offers 100 VIP pre-sale packs of 10000 Bitcoin aimed at medium and large holders who want to invest 2500 USD. These VIP investors receive also a pack with 10 promotional gifts.

Second stage

It starts after that IDO dex pre-sale is concluded. The bitcoin IDO smart contract creates automatically the Liquidity Pool and locks it during 21 months, assuring finance stability to the project and creating a lot of trust amongst holders. Trading starts in PancakeSwap. The contract will start distributing 5% rewards in bitcoin (BTC) to all holders that maintain a minimum of 100 bitcoin in their wallets. Trading will be dynamic according to bitcoin calendar events dates.

Third stage

It consists in listing bitcoin in **CoinMarketCap** and **CoinGecko**. Verify bitcoin information and logotipe in **BSCSCAN**. Apply form to add bitcoin logotipe to Trust Wallet and Metamask. Start a strong and innovative marketing campaign, online and offline, to attract new traders and holders to the project

Fourth stage

It focuses on promoting daily bitcoin trading, increasing the number of holders around the world. More daily trading means more reward distribution in bitcoin (BTC). Increase the value and prestige of bitcoin by negotiating its listings only with important high security exchanges such as: **Binance, Coinbase, Kraken, Bitforex, Huobi Global, BitMart, Bybit, KuCoin, OKX, Gate.io, HTX, Bithumb, Crypto.com, Upbit, MEXC, eToro y LBank.**

Who is Zhao Nakamoto?

Zhao Nakamoto is the little brother of **Satoshi Nakamoto**, the creator of **bitcoin (BTC)**, the first decentralized currency powered by Blockchain technology.

After 14 years traveling around the world as a space engineer, Zhao Nakamoto has decided to build his own spacecraft to reach **Mars** before **Elon Musk**.

That's why he came up with the idea of helping his brother Satoshi creating a new currency on the **Binance Smart Chain (BSC)** called **bitkoin**.

On October 2, 2023 at 11:30 AM, Zhao Nakamoto gave life to **21,000,000 bitkoin**, to narrate the history of **bitcoin (BTC)**, from 2009 to today, through a calendar with designated dates ([see calendar](#)) that will make bitkoin trading something very original.

In addition, **Zhao Nakamoto** has programmed **bitkoin** to distribute 5% rewards in **bitcoin (BTC)** to its holders every day.

The entire fee (5%) is fully distributed to all holders who keep (stake) at least 100 bitkoin in their wallet.

Zhao Nakamoto wants anyone, even if they have very low resources, to be able to receive rewards in **bitcoin (BTC)**. For this reason, he has decided to launch a pre-sale (IDO) of 5 million bitkoin at the price of 0.25 USD per unit, from a minimum purchase of only 2.5 dollars (10 bitkoin) to a maximum purchase of 645 USD (2580 bitkoin) per wallet. ([Click here to join the pre-sale](#))

When Zhao planned the pre-sale, he has also thought about young **whales**, which is why he has prepared **100 VIP packs** consisting of **10,000 bitkoin + 10 merchandising gifts** at the price of 2500 USD. ([Click here to join the VIP pre-sale](#))

When the IDO ends, the Smart Contract will automatically create the Liquidity Pool and lock it for 21 months.

Zhao Nakamoto, like his brother **Satoshi Nakamoto**, wants to offer **maximum security and transparency** to everyone who wants to participate in bitkoin pre-sale.

Therefore, the pre-sale is carried out through a **Smart Contract in Cointool**, so that in this way the money raised during the IDO is

Zhao Nakamoto

Satoshi Nakamoto

automatically sent to **PancakeSwap** for the creation of the liquidity pool and finally it is blocked for 21 months as a guarantee of the seriousness of the project.

More information about Zhao Nakamoto:

Zhao Nakamoto's net worth: **1,000,000 bitkoin**

Profession: **Aerospace Software Engineer**

Years active: **Since July 2003**

Nickname: **"The bitkoin Creator"**

Birth: **September 10, 1977 (46 years old)**
